Panic Button

Posted by twister - 2010/02/21 12:25

_____

We're an online radio and this means we're relying on a Internet connection. That may fail sometimes, we're all experienced this. This is where The Panic Button came in handy!
  The Panic Button is located on the site's footer, just expanded the panel and it will be revealed.
  If you'll encounter issues with our main radio streaming just hit Panic Button and a back-up streaming line will power on for you, enabling you to continue listening RockHall Radio.
